

JOHN DYER

...is a master gem cutter known world wide for his artistic ability and passion for precision. He has won 54 gem cutting awards in the past 15 years - taking a total of 14 first place prizes during this period. Further, John is the only gem cutter who has swept all the awards in one category of the AGTA competition, which he did in 2005, 2007 & 2015. These awards establish him as a leader in his field.

Professional Jeweler magazine states: "It's gem cutters such as John Dyer... who set the path and the precedent for designer jewelry."

Gems are rare and their mining is very labor intensive. John feels that every piece of gem rough is special, so he studies each one and tries to plan every nuance of the cut to achieve the maximum potential for beauty that was hidden in the rough and reveal it in the finished gem.

Shouldn't your next purchase be this special?

From classic shapes with exceptional brilliance to avant-garde designs reminiscent of modern art, John Dyer has a gemstone that will beautifully complement your personal style.

Your unique piece of jewelry with one of John's gem creations is something that will not only delight you today but also become an heirloom which many future generations will enjoy.

Discerning customers have learned the age-old lesson: Quality never goes out of style.
